

## Making your life easier with “Shovel Ready” Drawings Be prepared to EXECUTE

You can buy your buildings and meet your facility needs through a GSA purchase, with a building system and design/build, turn-key installation.

Significantly reduce acquisition time, and order not only the building systems and components, but all of the design and engineering services to provide a complete and ready-to-use facility.

A portfolio of facilities are available for download from K-Con's website. Mark up the drawings and return them to K-Con. We'll send you modified 10% drawings, a scope of work and a budget cost.
